

NOVITA TECHNE: AUDIO VISUAL SYSTEMS DESIGNER

We are a Canadian company which has specialized in designing a wide range of information, communications and presentation systems since 1982.

We believe that our first responsibility is to understand the needs of the owner and users. Our second responsibility is to provide technological solutions which address these needs in a creative and economical way.

The Audio Visual Designer will be involved in a wide range of projects including live performing arts facilities, multi-media and presentation theatres, conference and convention facilities, large entertainment centers, Emergency Operation Centers, corporate boardroom, meeting and training facilities.

Skills required

- Demonstrated ability to prepare contract and tender documents
- Work as part of a team
- Work within changing deadlines
- Proven ability to produce professional system drawings

Qualifications

- Minimum CTS certification (CTS-D preferred)
- Minimum 3 years related experience in the Canadian market
- Experience using AUTOCAD and other computer drawing programs (experience with using Autodesk Revit is desired)
- Knowledge of audio video and multi-media components
- Knowledge of reading and understanding architectural, electrical, and mechanical drawings

To apply please send your resume and cover letter to admin@novita.ca
